OneSpan

ONESPAN SIGN FOR GOVERNMENT

As all levels of government strive to become 100 percent digital, e-signatures are seen as a key enabling technology to help increase speed and innovation within the organization, as well as build better experiences for government personnel, partners and citizens.

As the e-signature choice in government for over 20 years, OneSpan Sign is trusted by some of the most security-conscious organizations at all levels of government. From the simplest signing workflows to the most complex and regulated transactions, OneSpan Sign provides a flexible and scalable e-signature solution for government agencies.

> "Our firm signs numerous documents to include those with foreign partners and government officials. [OneSpan Sign's] customizable workflows significantly reduces transaction speeds, allowing documents to be signed quicker and more efficiently. Documents can also be signed offline in mobile devices!"

Key Features

Legal, Trusted, Secure and Irrefutable

- ESIGN, UETA and eIDAS-compliant e-signatures;
- Meets government security certifications: National Institute of Standards and Technology (NIST), Joint Interoperability Test Command (JITC), National Security Agency's National Information Assurance Partnership (NIAP);
- OneSpan Sign is the *first* comprehensive e-signature solution in a FedRAMP compliant cloud;
- Authenticate the signer's identity via email, SMS text code, Q&A, knowledge-based authentication (e.g., Equifax), CAC or PIV smartcards, derived credentials, DIGIPASS and more;
- Anti-tampering controls: encrypts each person's signature using advanced digital signature technology;
- Comprehensive audit trails for demonstrating your compliance and legal case – who signed, in what order, when and how.

Conveniently Send and Sign on the Go

- Mobile support: send, sign and approve documents from anywhere and on any device;
- Mobile signature capture option transforms any mobile device into a signature capture pad.

Open and Flexible to Meet Your E-signature Needs

- Fully white-label the e-sign process to keep the spotlight on your brand – from start to finish – to drive high completion rates;
- Open API, fully supported SDKs for Java, .NET, APEX, iOS, Android and more, and complete documentation to facilitate rapid development;
- Unlimited access to prototyping and testing in the OneSpan Sign Sandbox environment;
- Mobile SDK to build e-signing capabilities natively into your mobile apps.

Add E-signing Capabilities to Popular Business Applications

- All OneSpan Sign plans include the following pre-built connectors:

salesforce   box   Office 365   Microsoft Dynamics CRM   SharePoint

OneSpan

OneSpan enables financial institutions and other organizations to succeed by making bold advances in their digital transformation. We do this by establishing trust in people's identities, the devices they use, and the transactions that shape their lives. We believe that this is the foundation of enhanced business enablement and growth. More than 10,000 customers, including over half of the top 100 global banks, rely on OneSpan solutions to protect their most important relationships and business processes. From digital onboarding to f raud mitigation to workflow management, OneSpan's unified, open platform reduces costs, accelerates customer acquisition, and increases customer satisfaction.
