

Digipass® GO 6

Datasheet

Digipass GO 6 delivers strong, two-factor authentication in a compact, one-button device that makes secure access effortless. Designed for banks and enterprises that need to protect remote users, it combines proven cryptographic security with unmatched ease of use and low operational overhead.

Simple, uncompromising security

Digipass GO 6 helps organizations replace outdated static passwords with dynamic one-time passwords (OTPs) that stop phishing, credential theft, and unauthorized access.

Each OTP is generated using OneSpan's proven Digipass technology, providing strong cryptographic security, ensuring only valid users gain access.

For banks, financial institutions, and enterprises, it delivers a simple and effective way to strengthen remote and online authentication without increasing friction for users.

What you see is what you sign

With one-button simplicity, users can generate a one-time password instantly to log into applications, websites, or networks, no training required. Its lightweight, portable form factor allows users to keep it on a key ring or lanyard, ensuring secure access wherever they go.

High user acceptance reduces helpdesk calls and boosts adoption rates, making it

an ideal fit for large-scale deployments.

Fast, Flexible Deployment

Integration into existing environments is quick and straightforward. Organizations can replace static passwords immediately with Digipass GO 6 dynamic OTPs, using Digipass server solutions that supports the entire Digipass family.

Whether you're replacing legacy authentication methods like TAN lists or building a new zero-trust environment, Digipass GO 6 fits effortlessly into your existing infrastructure, helping you move quickly without compromising on security.

Durable and customizable

Built for daily use, Digipass GO 6 is waterproof, shock-resistant, and engineered for long life.

Designed to align with your organization's identity, Digipass GO 6 can be customized with your company's logo, brand colors, and visual elements. A transparent protective lens preserves branding over time, even in high-use environments.

Highlights

Secure and convenient

- Strengthen access security with dynamic, one-time passwords
- Supports multiple applications with a single device
- Deploy quickly with minimal IT involvement or user training
- Simple one-button operation, providing an intuitive user experience and unmatched user acceptance
- Ideal for banking, healthcare, and enterprise security needs

This combination of resilience and brand customization reinforces user trust and organizational identity.

Secure access, simplified

With its proven technology, simple operation, and easy deployment, Digipass GO 6 helps organizations achieve strong authentication without complexity, delivering trusted security for every user, everywhere.

FEATURES
• One-button operation for one-time password generation
• Digipass time / event based algorithms
• Remote host authentication
• Customizable OTP length, OTP refresh frequency (for time-based algorithms) and welcome message
• Easily customized with corporate logos, branding and company colors
• Supports OneSpan's Multi OTP technology
• Real-time clock

TECHNICAL SPECIFICATIONS	
Size	62,7 mm (L) x 25,9 mm (W) x 9,9 mm (H)
Weight	14 g
Display	High contrast 8-characters LCD
Supported algorithms	• Digipass event and time-based (DES, 3DES and AES) • OATH event (HOTP) or time (TOTP) based
Languages	Multilingual support
Battery	Non-replaceable

CERTIFICATION AND COMPLIANCE		
Short-term Storage Temperature	• -10°C to 50°C • 90% RH non-condensing	• IEC60068-2-78 (damp heat) • IEC60068-2-1 (cold)
Operating Temperature	• 0°C to 45°C • 85% RH non-condensing	• IEC60068-2-78 (damp heat) • IEC60068-2-1 (cold)
Tampering	• Tamper evidence	• ISO 13491-1
Drop	• 1 meter	• IEC60068-2-31
Vibration	• 10 to 75 Hz; 10 m/s2	• IEC 60068-2-6
Water resistance	• Waterproof IPx7 (1 meter)	• ISO 60068-2-18 or IEC
Emission		• EN55032
Immunity	• 4 kV contact discharges • 8 kV air discharges • 3 V/m from 80 to 1000 MHz	• EN55024
Compliant with European Directives	• CE: 89/336/EEC or 2004/108/EC • RoHS: 2002/95/EC • WEEE:2002/96/EC	

About OneSpan

OneSpan is a global leader in digital security, trusted by thousands of enterprises across 100+ countries—including more than 60% of the world’s 100 largest banks—to safeguard digital accounts, secure financial transactions, and prevent fraud. Our award-winning solutions provide passwordless authentication, digital transaction security, and advanced mobile application protection, helping organizations meet the highest security standards and global compliance requirements. As cyber threats grow more sophisticated, OneSpan delivers cutting-edge technology to safeguard customers, mitigate risks, and ensure trust in every digital interaction.
