

Digipass® GO 7 FIPS

Digipass GO 7 FIPS is a FIPS-certified one-time password (OTP) hardware authenticator designed to deliver strong two-factor authentication with unmatched user convenience. This single-button, ultra-slim device supports OneSpan's multi-OTP technology, enabling secure access across multiple applications with a single device, ideal for financial, healthcare, and enterprise environments.

As cyberattacks grow more sophisticated and compliance demands tighten, organizations need authentication solutions that deliver strong protection without disrupting daily operations.

Certified simplicity for uncompromised security

Outdated security methods—like static passwords or paper-based codes—are no match for modern threats such as phishing, credential theft, and account takeover.

Digipass GO 7 FIPS offers a smarter alternative. It enables banks to protect customer accounts without compromising the digital experience. Healthcare providers can meet EPCS and HIPAA requirements while giving clinicians an effortless way to log in. For enterprises, the device delivers scalable two-factor authentication that secures remote access while minimizing helpdesk calls and user friction.

Digipass GO 7 FIPS is a FIPS 140-2 Level 2 certified hardware token that

offers reliable one-time password (OTP) authentication in a sleek, user-friendly design. It combines strong security, and zero learning curve and is the trusted choice for securing access.

Fast and frictionless experience

Digipass GO 7FIPS is designed with usability in mind. A single press of a button generates a dynamic, time-based OTP that gives users instant access to critical systems, applications, or websites. The device supports OneSpan's multi-OTP technology, which means it can authenticate across multiple applications, streamlining the user experience and reducing device sprawl.

Streamlined deployment and seamless integration

Rolling out Digipass GO 7FIPS is fast and straightforward. It works out of the box with OneSpan's back-end server solutions.

Whether you're replacing legacy authentication methods like TAN lists or

Highlights

Secure and convenient

- FIPS 140-2 Level 2 certified
- Supports multiple applications with a single device
- Simple one-button operation, providing an intuitive user experience and unmatched user acceptance
- Ideal for banking, healthcare, and enterprise security needs
- Customizable branding

building a new zero-trust environment, Digipass GO 7 FIPS fits effortlessly into your existing infrastructure, helping you move quickly without compromising on security.

Purpose-built, professionally branded

Designed to align with your organization’s identity, Digipass GO 7 FIPS can be customized with your company’s logo, brand colors, and visual elements. A transparent protective lens preserves branding over time, even in high-use environments.

As the slimmest device in the Digipass GO lineup, it’s built for portability and meets standard postal requirements in many regions, ideal for large-scale deployments to distributed workforces or customer bases.

TECHNICAL SPECIFICATIONS	
Size	48mm (L) x 25 mm(W) x 9,5 mm(H)
Weight	13g
Keypad	One-button
Display	High-contrast 8 characters LCD
Battery	Non-replaceable
Supported crypto algorithms	3DES and AES
FIPS	FIPS 140-2 Level 2
OATH	Supports time- (TOTP) and event-based (HOTP) OTP Real-time clock for time-based generation

CERTIFICATION AND COMPLIANCE		
Short-term Storage Temperature	-10°C to 50°C	IEC60068-2-78 (damp heat)
	90% RH non-condensing	IEC60068-2-1 (cold)
Operating Temperature	0°C to 45°C	IEC60068-2-78 (damp heat)
	85% RH non-condensing	IEC60068-2-1 (cold)
Vibration	10 to 75 Hz	IEC60068-2-6
	10 m/s²	
Drop	1 meter	IEC60068-2-31
Waterproof	IPX7	ISO 60068-2-18
	(1 meter depth for 30 mins)	IEC 60529
Tamper-evident	Complies with ISO 13491-1	

About OneSpan

OneSpan is a global leader in digital security, trusted by thousands of enterprises across 100+ countries—including more than 60% of the world’s 100 largest banks—to safeguard digital accounts, secure financial transactions, and prevent fraud. Our award-winning solutions provide passwordless authentication, digital transaction security, and advanced mobile application protection, helping organizations meet the highest security standards and global compliance requirements. As cyber threats grow more sophisticated, OneSpan delivers cutting-edge technology to safeguard customers, mitigate risks, and ensure trust in every digital interaction.
