

E-SIGNLIVE™ FOR BOX®

SECURELY SEND DOCUMENTS FOR E-SIGNATURE DIRECTLY FROM BOX®

Businesses use Box to securely access, share and manage content. When documents stored in Box require signing however, transactions often fall to paper which can hinder the collaboration process – both inside and outside the organization.

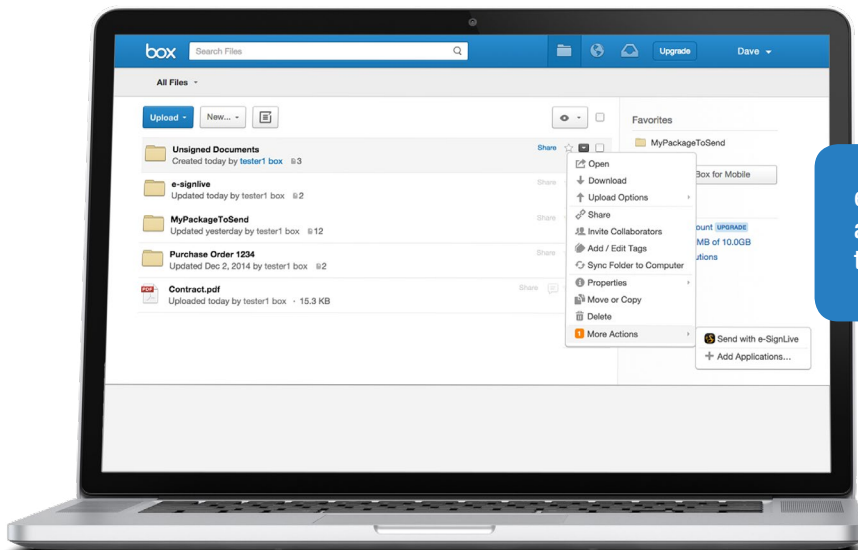

eSignLive for Box is an app for preparing and sending documents for e-signature directly from Box. By ensuring that the process stays 100% digital and never falls to paper, you can help keep your business and projects moving. What's more, by adding e-signatures to your documents in Box, you'll be able to automate business processes and more easily collaborate with your fellow employees, customers, partners and suppliers.

The app handles many different scenarios, including:

- Multiple documents and signers
- Numerous authentication methods
- Serial and parallel signing
- Online and in-person signing
- Signing on mobile devices

Delight customers with the ability to instantly sign documents and not have to worry about the logistics of sending and signing documents using manual, paper-based processes.

Built for: 

eSignLive and Box make it easy to securely access, collaborate and manage documents that require signature.

HIGHLIGHTS

Deliver & manage documents in real-time

- Drag & drop signature blocks and fields into documents
- Invite customers, partners, suppliers and internal team members to e-sign
- Automatically archive e-signed documents in Box
- Apply layouts to automate the document preparation process

Collaborate securely

- Share documents with anyone inside and outside your company
- Numerous user authentication options

100% secure and legal

- The most comprehensive electronic evidence in the industry
- E-signed documents include embedded audit trails and tamper-evident signatures

Senders initiate the creation of a transaction from Box (select signers, prepare documents and choose other e-signature options), and:

- Send transactions for signature
- Monitor progress in real-time
- View e-signed documents and the audit trail, stored in Box

Signers receive an email inviting them to e-sign documents. They authenticate themselves, gain access to the document(s) and click to sign.

Send single or multiple documents within a Box folder for signature.

FROM THE E-SIGNATURE PROVIDER THAT:

- **Powers e-contracting processes** for the largest contracting organization in the world, the General Services Administration (GSA); as well as NASA JPL, the U.S. Air Force, RBC Royal Bank, Bosch Automotive, and pharmaceutical distributors, hospitals and healthcare organizations.
- **Processes more than 600 million documents annually** for some of the world's biggest brands and security conscious organizations, including the U.S. Joint Chiefs of Staff, U.S. Bank, BMW Financial Services, Santander Consumer Bank, Country Insurance, 21st Century Insurance, American National, Principal Financial Group, USDA, the entire U.S. Army and many more.
- **Has been repeatedly recognized for outstanding customer service**, including being named 2014 and 2013 Leader in Customer Satisfaction by enterprise software review site G2 Crowd, and an award from GEICO for "dedication, customer focus and fanatical service". In 2013, eSignLive received a top rating of 94% for customer satisfaction, winning Gold in the 2013 Novarica Average Customer Experience (ACE) rankings for the insurance industry.
