

21ST CENTURY IDEA ACT CHECKLIST

JUNE 2019

Electronic signatures

- A report to U.S. Congress and the OMB is due with a plan to accelerate electronic signatures.

Government services and forms

- OMB provides guidance to agencies to identify and prioritize public, paper-based, and in-person government services with the greatest impact for digitization and a cost and schedule estimate.

New and redesigned websites and services should conform to the following standards:

- Meet accessibility standards and regulation for individuals with disabilities (based on [Section 508 of Rehabilitation Act](#))
- Maintains a consistent appearance
- Does not duplicate any legacy websites
- Includes search functionality
- Uses an industry standard secure connection
- Is designed around user needs
- Allows for user customization
- Is mobile-friendly

DECEMBER 2019

Existing agency websites and digital services

- Each agency should submit a report to U.S. Congress with:
 - Prioritized list of websites and digital services that require modernization
 - Estimated cost and schedule for modernization
- Annual progress reports due to Congress and OMB on website and digital services modernization

DECEMBER 2020

- All public-facing forms are required to have a digital option
